EDUCATION

The LNM Institute of Information Technology

2019- 2023

Jaipur, India

Bachelor of Technology in Computer Science

Adarsh Vikas Vidyalaya

2018

Patna, India

Percentage: 81.60%

Kendriya Vidyalaya Danapur Cantt

2016

Patna, India

CGPA: 10/10

SKILLS

Languages: C, C++, JavaScript

Databases: MySQL, MongoDB

Web Development: Node.js, React, React Native

Tools: Git, Linux, Docker

EXPERIENCE

Software Engineer Intern - HybrisWorld

19 Jan 2022 - 30 April 2022

Created different screens using Android Studio from the figma design and added functionality to it (navigation, runtime permissions, handling button clicks, etc.). Worked with different APIs to show relevant data on certain actions.

PROJECTS

Lecture Hall Management (Web)

A web app to efficiently manage Lecture Halls. It uses React for the frontend and Node.js (Express) for the backend. Users can search for available lecture halls, see currently allocated lecture halls, details about all lecture halls (name, capacity, etc.) and modify their profiles. There's also a dashboard for the admin who can add/delete users/lecture halls, approve requests, etc.

Project Link: <https://github.com/ankushdutt/resource-management-frontend>

Blog (Web)

Created a Blogging Website using Express (Node.js) and MongoDB with features like Authentication, Markdown Support, etc. Bloggers can create accounts, view other blogs, add blogs (and edit/delete their posts), and comment on them.
